EXPERIENCE:

September 2017 – Present: Jr. Developer, Craft Worldwide, NY

Over the last year at Craft I have worked on advertisements for many exciting clients such as Microsoft, MGM, and most prominently the New York Lottery. In addition to creating countless HTML5 banners I have had the pleasure of working on several websites, APIs, and even a karaoke machine!

May 2017 – September 2017: Web Consultant, Modomo Technology and Web Services

Worked as a part time web consultant on various projects expanding my collegiate skill level. Gained more experience in Python, WordPress, and some Drupal.

EDUCATION:

Full Sail University, Orlando, FL

Bachelor of Science in Web Design and Development. April 2017

Academic Awards: Salutatorian, several Course Director's Awards

HIGHLIGHTS:

MGM's Universal Love Karaoke Machine

To honor the beginnings of the gay rights movement MGM set out to create a karaoke machine that would allow users to choose what pronoun would be used in the lyrics. The final product had an exciting launch at the famous Stonewall Inn.

The Espresso Book Machine

This Python based printer is capable of printing out entire paperback books in minutes. With a library of millions of Public domain books it's not shocking these have been popping up all over the world in bookshops and college campuses.
